

Abstract Publications

A. W. Glisson and C. H. Ma, "Moment solution for the current and impedance of coupled cylindrical antennas in dissipative media," abstract in **1974 USNC/URSI Spring Meeting Digest**, Atlanta, Georgia, pp. 62-63, June 1974.

A. W. Glisson and C. M. Butler, "Computation of the current induced on a rectangular plate behind a planar screen by an electromagnetic field which penetrates the screen through a small aperture," abstract in **1977 USNC/URSI Meeting Digest**, Stanford, California, p. 131, June 1977.

A. W. Glisson, D. R. Wilton, and B. M. Duff, "Input impedance characteristics of antennas on finite ground planes," abstract in **1977 USNC/URSI Meeting Digest**, Stanford, California, p. 175, June 1977.

A. W. Glisson and D. R. Wilton, "An accurate numerical investigation of the stepped-radius antenna," abstract in **1978 USNC/URSI Fall Meeting Digest**, Boulder, Colorado, p. 16, November 1978.

A. W. Glisson and C. M. Butler, "Investigation of an arbitrarily oriented thin-wire antenna near a body of revolution," abstract in **1979 USNC/URSI Fall Meeting Digest**, Boulder, Colorado, p. 133, November 1979.

S. M. Rao, D. R. Wilton, and A. W. Glisson, "Time-domain electric field integral equation approach to the solution of transient scattering by arbitrarily shaped objects," abstract in **1980 North American Radio Science Meeting Digest**, Quebec City, Quebec, Canada, p. 121, June 1980.

D. R. Wilton and A. W. Glisson, "On improving the stability of the electric field integral equation at low frequencies," abstract in **1981 USNC/URSI Spring Meeting Digest**, Los Angeles, California, p. 24, June 1981.

C. M. Butler and A. W. Glisson, "Scattering from a conducting strip located below the interface between two half spaces," abstract in **National Radio Science Meeting Digest**, Boulder, Colorado, p. 107, January 1982.

D. R. Wilton, D. H. Schaubert, and A. W. Glisson, "Tetrahedral cell modeling of arbitrarily-shaped inhomogeneous dielectric bodies," abstract in **National Radio Science Meeting Digest**, Boulder, Colorado, p. 221, January 1982.

D. H. Schaubert, D. R. Wilton, and A. W. Glisson, "Computation of fields inside lossy, inhomogeneous, dielectric bodies," abstract in **National Radio Science Meeting Digest**, Albuquerque, New Mexico, p. 62, May 1982.

A. W. Glisson, D. R. Wilton, D. H. Schaubert, and S. M. Rao, "Electromagnetic scattering by arbitrarily shaped bodies," abstract in **National Radio Science Meeting Digest**, Boulder, Colorado, p. 139, Jan. 1984 (invited).

D. R. Wilton, D. H. Schaubert, A. W. Glisson, and O. M. Al-Bundak, "Numerical analysis of scattering by arbitrarily shaped inhomogeneous dielectric bodies," abstract in **U.R.S.I. XXIst General Assembly Digest**, Florence, Italy, p. 151, Aug. 1984 (invited).

A. W. Glisson, "Computation of current induced on very thin wires via the method of moments," abstract in **Proceedings of the First Annual Review of Numerical Electromagnetics Code (NEC) Applications**, Livermore, California, March 1985.

Z. Gong and A. W. Glisson, "A hybrid equation approach for the solution of electromagnetic scattering problems involving two-dimensional inhomogeneous dielectric cylinders," abstract in **National Radio Science Meeting Digest**, Vancouver, Canada, p. 66, June 1985.

L. W. Pearson and A. W. Glisson, "Diffraction of a plane wave at a corner common to P.E.C. and penetrable quarter spaces," abstract in **1985 National Radio Science Meeting Digest**, Vancouver, Canada, p. 215, June 1985.

A. W. Glisson and B. I. Sholy, "Numerical solution of electromagnetic scattering problems involving homogeneous dielectric bodies via a single integral equation," abstract in **1986 National Radio Science Meeting Digest**, Philadelphia, Pennsylvania, p. 100, June 1986.

A. W. Glisson, "On the Uniqueness of Frequency Domain Single Integral Equation Formulation Solutions," abstract in **1987 National Radio Science Meeting Digest**, Blacksburg, Virginia, p. 27, June 1987.

B. S. Yang and A. W. Glisson, "Hybrid Equation Solutions for Electromagnetic Scattering Problems," abstract in **Journal of the Mississippi Academy of Sciences**, vol. XXXIII Supplement, Biloxi, Mississippi, March, 1988.

B. C. Ahn and A. W. Glisson, "On the optimum choice for the Coupling Coefficient Alpha in the Combined Field Integral Equation," abstract in **1988 National Radio Science Meeting Digest**, Syracuse, New York, p. 368, June 1988.

A. W. Glisson, "Application of the magnetic field and combined field integral equations to problems of electromagnetic scattering by arbitrarily shaped bodies," abstract in **1989 URSI Radio Science Meeting Digest**, San Jose, California, p. 110, June 1989.

A. W. Glisson, "Electromagnetic scattering by arbitrarily shaped bodies with impedance boundary conditions," abstract in **1989 URSI Radio Science Meeting Digest**, San Jose, California, p. 280, June 1989.

A. W. Glisson, "Effect of approximations in the formulation of the mixed-potential integral equation," **1990 URSI Radio Science Meeting Digest**, p. 127, Dallas, Texas, May 1990.

A. W. Glisson, M. Orman, F. Falco, and D. Koppel, "Electromagnetic scattering by an arbitrarily shaped body with an anisotropic impedance boundary condition," **1992 National Radio Science Meeting Digest**, p. 122, Boulder, Colorado, January 1992.

P. M. Goggans, A. W. Glisson, A. A. Kishk, and B. S. Yang, "The "Inside Out" integral equation formulation for multi-region scatterers," **1992 URSI Radio Science Meeting Digest**, p. 427, Chicago, Illinois, July 1992.
